JU-SI ADVENTURES

Get Lost in the Great Outdoors and Find Yourself

The Great trail in this province is approximately 867km long. It uses 335km of roadways and paved paths, 310km of gravel paths and 130km of wilderness trails. The majority of the gravel paths are well groomed and level as they use old roadways and railbeds. These paths follow the St John River and offer beautiful vistas as well as cross many communities. The jewels of this province are the Dobson trail and the Fundy foot path. These two wilderness paths cross the hills South of Moncton and the Fundy National park. They are rugged, narrow and winding. The Trails are clearly marked with white paint on trees along the way, but remember to look up regularly to look for these marks as the trails are quite wild and getting lost is a clear possibility. The Great Trail in New Brunswick has 92 km of water ways along the St John River between Grand Bay and Oromocto. For walkers and cyclists, the alternative is to use the St John valley road, Hwy 102.
